

October 16, 2025: On the Police Being Used as Props in Donald's Terrorism Against Our Home

I am documenting the immediate and ongoing use of police sirens as police vehicles around San Antonio to act as props to cause 'reactionary' terrorism and threats within the interior of my home.

As I have been documenting for years now, Donald Trump's team is spying on the interior of my home 24/7/365. For many months now, **Donald Trump has been implying that his team of crooked and 'dirty' police are about to arrest me for my free speech against him.**

Recently, 'dirty' police vehicles were driving alongside ours while we passed a pair of vehicles being added to a tow truck by the Balcones Heights Police Department (the symbolism at the time was for their vehicles which read 'In God We Trust' to be picking up a 'bowtie' wearing yin vehicle, etc.

Yesterday, as we leave our house, there are handcuffs on the 'red' (war) truck of the vehicle parked at the 'turn' to from our street and the imagery continued on all the way to our destination. As I have previously recorded, I don't have the time to document each and every element of their threats because they are created by a 'step-by-step' combination of many elements that combine to form one message. A collage is built around my movements at all times to threaten my with Donald's mindset of terrorism, abusiveness, and malicious actions.

- A black, yin, jeep has a yellow, enlightened boot on its wheel at a local car dealership,
- The car dealership has a 'Snap-On' tools truck parked outside of it ('Bolton' is apparently next for the malicious Trump revenge today in the news),
- A P-U-LICE truck followed us to our destination, etc, etc, etc.

Yes, Donald I am aware. I am ready to be arrested and to present my case to a jury of my peers. Please don't have your 'attack dogs' shoot me when they storm into my home for their big choreographed 'arrest scene.' I will be unarmed and 'yin' just like you portray me in your fantasies.

The immediate instance is a recurring use of 'sirens' to connect what I am doing to the message that police are 'on their way' to retrieve me and arrest me for the freedom of speech that I am using against the Donald Trump terrorism and malicious spying that he is using against our home. **This is an effect that was used numerous times before we left the country earlier this year.**

I am looking up 'arch' for the next document that I am producing about how Donald Trump is simply stealing ideas right out of my computer work to present as his own and immediately the 'sirens' begin sounding to alert me that the 'police' are the 'arch' that this plot is following.

Thank you, Donald for your continuing use of our local police forces to act as props in your ongoing 'action' film that you are creating around our home. **I understand that you consider these local police to be you 'dogs' that you are 'feeding' by paying them our tax dollars. I will be certain to inform them** in my months long interrogation video about all of the derogatory ways in which you have been creating the visualization that you are a gangster that 'owns' our local, state, and national police forces.

Yes, Donald Trump. Your meticulously genius plot to extort the nation's police units by using women, illegal spying, prostitution, and dirty hands has worked perfectly. You are, in fact, the re-manifestation of Satan and you are headed towards your goal of becoming Hitler.
